

1. Locate and connect the vehicle's 4 pin plug with the matching brake control 4 pin plug. It's found under the dash on the driver's side.

2. Locate and connect the vehicle's 2 pin plug with the matching brake control plug 2 pin plug. It's found under the dash, just above the brake pedal.
3. Plug the brake control harness into the brake control.

## NOTE:

Wire to brake control by function only. Color coding is not standard among all manufactures. To ensure proper installation read brake control instructions thoroughly.

## WIRING CODES

White = Ground  
Blue = Electric Brake  
Black = Battery  
Red = Stop Lamp Switch
