WARNINGS

	Use caution	Electricity can be very dangerous. Take appropriate caution when making connections.
	Battery and wiring safety	Observe all safety precautions of the battery manufacturer when handling or working around batteries. When charging, batteries produce hydrogen gas, which is highly explosive. Ensure batteries are in a well-ventilated space, away from sparks for open flames.
	Wiring connections	Ensure all connections are tight and secure. Loose connections may generate sparks and heat. Be sure to check all connections before using the portable solar kit.
	Do not dispose of in fire or landfill	This product should be disposed of in accordance with local and federal regulations. Locate your nearest electronic recycling center to dispose of this item.
